RE: 2006 Helen Keller International Art Show  
Salt Lake City Edition  

This is a call for the Helen Keller International Art Show sponsored by the Council for Exceptional Children Division on Visual Impairments and the University of Alabama at Birmingham Vision Science Research Center. This invitation is for youth who are visually impaired, blind, or deafblind to submit artwork. Students may select the preferred art medium. The contest is open to students of all ages. Each school system may submit up to seven pieces of art.

The winning entries from the international contest will be exhibited, beginning with the CEC International Conference in Salt Lake City, April of 2006. The purpose is to promote an awareness of the abilities of persons who are visually impaired, blind or deafblind.

Please submit art work by January 14, 2006 along with the student information form that can be downloaded from the website Pathfindersofal.org.
